

**Hole 10 – Island Rule**  
Any throw from the tee that does not land safe on the island goes to the drop zone with +1. From the drop zone and all subsequent throws, standard OB rules apply. If the disc from the tee lands safe on the island, standard OB rules apply from then on.

**Holes 7 and 8 – Relief, no penalty**  
If the disc lands on the slope near the creek, the player may, but is not required to, take “relief” in the following ways:

1. If on the upper slope, the disc may be moved down to the flat area and 1 m away. This applies to both sides of the upper slope (towards the river and towards the creek).
2. If on the lower slope next to the creek, the disc may be moved up to the flat area (the path), 1 m from the slope. A disc in the creek or across the creek is OB, but the player may again take relief and play from the flat area (as in point 2).
